Goddammit. Your machine isn't just at risk of doing nothing— it might actually prove dangerous. You've got to do more research to understand exactly what the risks are.

Society of Ethical Liches/June 2, 2017

Open this when your Magical Understanding score is 4.

Your potion is meant to trigger a chain reaction that will automatically charge all the phylacteries on this demiplane, but it needs support from outside energy sources to reach the proper energy threshold. If it lacks far too much energy, it may trigger an entirely different reaction that will destroy phylacteries instead!

If you trigger neither reaction, the machine will have no effect.

Society of Ethical Liches/June 2, 2017

Open this when your Magical Understanding score is 8.

staple binding along here

If you add nine external power sources to the machine, your chances of triggering the charging reaction will be about equal to the chances of not triggering it.

Society of Ethical Liches/June 2, 2017

Open this when your Magical Understanding score is 10.

staple binding along here

If you add fifteen external power sources to the machine, you can guarantee that it won't destroy any phylacteries—worst case scenario, it'll do nothing.
